Ph: +91 9330142682 | shyamashreedas5@gmail.com | LinkedIn | GitHub | Website

ABOUT ME

Software Engineer focused on building reliable, practical, and business-oriented applications. Experienced in developing enterprise solutions, automating business workflows, and improving application performance. Strong in problem-solving, understanding business requirements, and delivering efficient, maintainable, and dependable solutions.

TECHNICAL SKILLS:

Languages: C#, JavaScript, Java, SQL, HTML, CSS

Frontend: Next.js, React.js, Tailwind CSS, Bootstrap

Backend: ASP.NET Core, Node.js, Express, REST APIs, JWT

Databases: SQL Server, PostgreSQL, MySQL, Supabase Prisma ORM

Cloud & DevOps: Azure, Docker, Kubernetes

Tools: Git, GitHub, Swagger

WORK EXPERIENCE:

Software Engineer

RS CONSULTANCY – KOLKATA | 

Apr 2025 - Present

- **Led end-to-end development of the WBSEDCL enterprise platform (Next.js, ASP.NET Core, Flutter)**, designing real-time interactive dashboards with **dynamic charts**, **24/7 automated email/notification engines**, and reporting workflows that cut report **processing time by 45%**.
- **Engineered robust REST APIs and SQL Server workflows** for Workboard's automation features, boosting backend transaction throughput by **30%** and supporting **70+ daily business transactions, including tickets and purchase orders**.
- **Refactored complex SQL Server queries and implemented indexing strategies**, improving database query execution speeds by **50%** and maintaining a **99.9% application uptime rate**.

Software Developer (Trainee)

BIT PASTEL - KOLKATA | 

Mar 2025 – Apr 2025

- **Implemented a full-featured Library Management System (PHP & React.js)** as part of professional training, designing secure user authentication and automated notification modules validated with **50+ test-case datasets**.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Sept 2021 – Aug 2025

Supreme Knowledge Foundation Group of Institutions - Mankundu, Hooghly

PROJECTS:

SMTP Manager (Bulk Email & Campaign Platform) | Next.js, Node.js, PostgreSQL (Supabase), REST APIs | 

- A high-reliability bulk email **marketing platform designed for automated campaign delivery**, ensuring optimal inbox placement and **real-time subscriber tracking**. **Engineered a Node.js bounce-processor** and suppression engine to protect sender reputation, **implementing bounce processing** and suppression mechanisms to improve email deliverability
- **Built a Next.js campaign wizard** integrated with a **separately deployed Express API backend** and optimized tracking APIs, reducing campaign setup times **by 60%** and keeping server latency **under 50ms**.

Workboard | Next.js, Tailwind CSS, ASP.NET Core (C#), SQL Server, REST APIs | 

- A live enterprise task and workflow management platform designed to automate **ticketing, purchase orders, and real-time project tracking** across cross-functional teams. **Implemented role-based dashboards** and secure ASP.NET Core (C#) APIs for **4 distinct user roles** (Super Admin, Admin, Sales, Engineers), improving team collaboration **efficiency by 40%**.
- **Automated purchase orders and ticket workflows** (saving **12+ operational hours weekly**), successfully managing **100+ project requirements** for **70+ customers** with **50+ active ticketing users**.

SHOPORE STORE | Next.js, Supabase, Resend, Razor pays (Test Mode), Brevo SMTP, REST APIs | 

- A full-stack e-commerce platform designed with dynamic product catalogs, secure checkout gateways, and automated transactional email workflows. **Built responsive product pages** featuring dynamic size charts and a flexible shopping cart (allowing users to instantly add, edit, or cancel orders), improving user session **retention by 20%**.
- **Integrated 3 payment options** (Cash on Delivery, GPay, Credit Card via Razor pay) and Brevo SMTP, processing transactional receipts with a **99.9% notification delivery rate**.

CERTIFICATIONS & ACHIEVEMENTS:

- **Cloud & DevOps: Microsoft Azure Essentials Professional | GitHub Actions (CI/CD)** skilled in setting up automated deployment pipelines and cloud infrastructure — LinkedIn Learning
- **End-to-End SQL Database Design & Optimization** — LinkedIn Learning
- LeetCode & Code Chef Problem Solver — **Solved 150+ algorithmic challenges (DSA)**
